EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alfred Musumeci on February 17, 2005.

The application has been amended as follows:

- 1) In claim 14, lines 2-8 & 10; claim 22, lines 1-5; and in claim 24, line 2: The term "planar" has been deleted.
- 2) In claim 14, line 9: The term --upwardly-- has been inserted after the term "extending".
- 3) Claims 15-18 have been cancelled.
- 4) In claim 19, line 1: The phrase "Claims 1, 2, 3, 4, or 5" has been changed to --Claim 14--.
- 5) In claim 21, line 1: The term "Claims" has been changed to --Claim--, and the phrase "15, 16, 17, or 18" has been deleted.
- 6) In claim 23, line 1: The term "Claims" has been changed to --Claim--, and the phrase "15, 16, 17, 18" has been deleted.

Art Unit: 3673

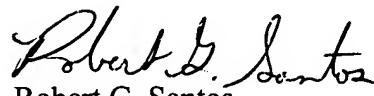

2. The following is an examiner's statement of reasons for allowance: The examiner respectfully asserts that none of the prior art, taken either singly or in combination, is seen to teach or suggest the use of a support device comprising the particular structure of a first *vertically* extending surface and a second *horizontally* extending surface, wherein the two surfaces extend *perpendicularly* relative to each other and a lower edge of the first surface extends contiguously with a rear edge of the second surface; and a continuous curved surface extending *upwardly* from an upper edge of the first surface to a front edge of the second surface, wherein the curved surface has a convex configuration adjacent the upper edge and a concave configuration *extending continuously with the convex configuration and ending at the front edge* by tapering to form a thin lower portion of the device, as specifically recited in Applicant's sole independent claim 14. As shown in the cited prior art, none of the disclosed support devices clearly contain a continuously curved surface which extends upwardly from the upper edge and having a concave portion which terminates at the front edge of the first horizontally extending surface. Since an updated search of the prior art also did not yield any other references pertinent to Applicant's claims, it is considered that the application is currently in full and proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert G. Santos whose telephone number is (703) 308-7469. The examiner can normally be reached on Tues-Fr and first Mondays, 10:30 a.m. to 8:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Heather C. Shackelford can be reached on (703) 308-2978. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
